

# Plantcam.live

An online exploration of an endangered hāhā

Name

Answer the following questions below by going to <https://www.plantcam.live/>.

.....

1. Look at the live image page. What does the weather look like up in the Waianae Mountains?

2. Who is Caly? What dangers does Caly face?

3. Watch one of the time-lapse movies of Caly. Make two observations of change.

4. View the graph that shows real-time growth below the 'live image' page. How much did Caly's stem grow in the last week? Is that a lot?

5. Click through the different weather variables in the drop-down menu. Do changes in the environment seem to be affecting Caly's growth? Describe any trend that you may observe.

6. In the ***Learn more*** tab, click ***About conservation efforts***. What are two conservation efforts being done to ensure a future for Caly?

7. What is the most valuable thing you learned today?

Thank You!
